NYSTRS Delegates Get First Look At System's Annual Report

NYSTRS delegates attending the Retirement System's November annual meeting have traditionally been the first members to receive a printed copy of the System's annual report. That tradition is changing this year, but for all the right reasons.

Delegates to this year's meeting can review the report *now* by selecting the "[Services and Resources](#)" tab on the [Delegates page](#) of the Retirement System's Web site at www.nystrs.org. In addition to giving delegates more time to review the report prior to the meeting, this approach is more environmentally friendly as fewer reports will be printed and distributed. Also, by providing the online version prior to the meeting, delegates may print pages of particular interest ahead of time.

In addition, delegates will receive a copy of the financial report on CD when they check in at the meeting. Beginning this year, printed copies of the document will not be included with meeting materials. If necessary, delegates may request a bound copy by noting it on their evaluation forms, e-mailing media@nystrs.state.ny.us, or calling our Hotline at (800) 782-0289. Printed reports will not be available for mailing until late November or early December.

This change in procedure is part of NYSTRS' continuing commitment to provide members with information in a timely and convenient manner. It also reflects our dedication to open government and environmental consciousness.
